# Descriere sumara

Am realizat o aplicatie pentru mobil, prin care le oferim pasionatilor de sport posibilitatea de a gasi in mod eficient si placut un centru sportiv in care pot practica diverse activitati in functie de interesul fiecaruia. Aplicatia va contine un sistem de autentificare prin care utilizatorii si companiile se pot inregistra si pot accesa platforma. Utilizatorii vor putea vizualiza locatiile disponibile prin intermediul unei harti. Odata selectata locatia acesta va primi toate detaliile necesare despre centrul selectat (descriere, contact, poze, program, etc.). Iar apoi, daca utilizatorul este convins de beneficiile oferite de locatie, el va putea verifica disponibilitatea programului accesand calendarul oferit de companie. Fiecare companie prezenta in aplicatie, va putea accesa rezervarile clientilor pentru a le valida, edita detaliile despre companie, adauga locuri noi pentru inchiriat, edita intervalele orare din calendar.
